| Project Name | Car Resale Value Prediction |

Project Objectives

By the end of this project:

- You'll be able to understand the problem to classify if it is a regression or a classification kind of problem.
- You will be able to know how to pre-process/clean the data using different data pre-processing techniques.
- Applying different algorithms according to the dataset.
- You will be able to know how to evaluate the model.
- You will be able to build web applications using the Flask framework.
